Discussion of future meetings

Adjourn

Mission Statement The Committee is charged with reviewing written background information provided in the Final Report of the Consultant engaged by the Town for analyzing Fire Department multi-year run information and providing findings on potential alternative locations for a new Town Fire Station. This will be supplemented by input, options and information provided by Fire Chief Small and Town Manager Suso as well as other involved Town staff members and Falmouth citizens. The Committee is asked to proceed in a workmanlike and efficient manner in facilitating a final recommendation to the Board of Selectmen on one/more feasible sites for this potential new Fire Station, including relative positives and negatives for each such potential site. It is the intention of the Board to encourage consistent and steady progress to timely reach this final recommendation, as it is in the public safety interest to facilitate moving to closure on this important matter. The Committee is asked to complete its work and transmit a final Report with recommendations to the Board of Selectmen by July 1, 2020.
